Face & Recessed

- When properly installed, this VERSatile fixture directs the light in an asymmetrical direction without having to angle the fixture, making it an excellent solution for illuminating artwork, signage, or even washing a ceiling detail.
- Features an extruded asymmetric lens with a proprietary diffusing agent that allows for light to be focused in a tight 45° beam that is shifted 30° off center
 - Features integrated metal endcaps
 - Mounting options include a concealed or magnetic clip
 - With an internal White Optics coating, the fixture achieves greater lumen output
 - Durable anodized aluminum housings
 - Consult factory for field assembly options
 - Optional plastic louver accessory available in white or black for added glare control

15 EXACT/OPTIMAL FIXTURE LENGTH

Exact fixtures are the exact length specified. Optimal fixtures' length is rounded down based on LED cut points to allow the fixture to be illuminated end to end. For runs with multiple fixtures that need to fill a specific length, it's recommended to order all optimal fixtures with an exact fixture at the end of the run.

Optimal Fixtures

Exact Fixtures
