SW-SD24/1.0

Sustainability Quick Reference Guide

This document offers a quick view of sustainability credits that could be awarded through use of this product. Please note that while QTL products can have a direct impact on obtaining points for sustainability programs, there are additional factors controlled by specifiers and project managers that can earn additional points. These include overall project design, layout, construction practices, the selection of reflective/non-reflective surface treatments, the use of lighting controls systems, etc. Not all variations of product fulfill the listed requirements, please consult spec sheets or listed supplemental documentation for more information.

LEED v4

	POTENTIAL POINTS	INFORMATION
Materials and Resources (MR): Material Ingredient Reporting	1	This product has a Declare label that meets specific criteria, such as being designated as Red list Free, LBC Red List Free, Declared, or LBC Red List Approved, and demonstrate the chemical inventory of the product to at least 0.1% (1000 ppm).
Indoor Environmental Quality (IEQ): Quality of Lighting	1	Color Rendering: This product meets the minimum Color Rendering Index (CRI) requirement of at least 90.
