# VERS-NANO-LOUVER-SK (11) STATIC COLOR

Sustainability Quick Reference Guide

This document offers a quick view of sustainability credits that could be awarded through use of this product. Please note that while QTL products can have a direct impact on obtaining points for sustainability programs, there are additional factors controlled by specifiers and project managers that can earn additional points. These include overall project design, layout, construction practices, the selection of reflective/non-reflective surface treatments, the use of lighting controls systems, etc. Not all variations of product fulfill the listed requirements, please consult spec sheets or listed supplemental documentation for more information.
